CONTENTS OF VOLUME 361

April 1985

CUTHBERT A.W. Calcium-dependent chloride secretion in rat colon epithelium. 1

HARDCASTLE Jacqueline, HARDCASTLE P.T. & NOBLE J.M. The secretory action of barium chloride in rat colon. 19

MARTIN-BODY R.L., ROBSON G.J. & SINCLAIR J.D. Respiratory effects of sectioning the carotid sinus glossopharyngeal and abdominal vagal nerves in the awake rat. 35

ELLIOTT J.R., HAYDON D.A. & HENDRY B.M. Dual effects of internal *n*-alkyltrimethylammonium ions on the sodium current of the squid giant axon. 47

MAYER Mark L. & WESTBROOK Gary L. The action of *N*-methyl-D-aspartic acid on mouse spinal neurones in culture. 65

SCHEID P. & SIFFERT W. Effects of inhibiting carbonic anhydrase on isometric contraction of frog skeletal muscle. 91

OLESEN Søren-Peter A calcium-dependent reversible permeability increase in microvessels in frog brain, induced by serotonin. 103

KONISHI S. & OTSUKA M. Blockade of slow excitatory post-synaptic potential by substance P antagonists in guinea-pig sympathetic ganglia. 115

FORD L.E., HUXLEY A.F. & SIMMONS R.M. Tension transients during steady shortening of frog muscle fibres. 131

MATSUBARA I. & YAGI N. Movements of cross-bridges during and after slow length changes in active frog skeletal muscle. 151

AKASU T., GALLAGHER J.P., NAKAMURA T., SHINNICK-GALLAGHER P. & YOSHIMURA M. Noradrenaline hyperpolarization and depolarization in cat vesical parasympathetic neurones. 165

ALLEN D.G., MORRIS P.G., ORCHARD C.H. & PIROLO J.S. A nuclear magnetic resonance study of metabolism in the ferret heart during hypoxia and inhibition of glycolysis. 185

MATTHEWS G. Membrane current noise in toad retinal rods exposed to low external calcium. 205

BERGA S.E. & NEVILLE M.C. Sodium and potassium distribution in the lactating mouse mammary gland *in vivo*. 219

MCCLESKEY E.W. Calcium channels and intracellular calcium release are pharmacologically different in frog skeletal muscle. 231

NACHSHEN Daniel A. The early time course of potassium-stimulated calcium uptake in presynaptic nerve terminals isolated from rat brain. 251

NICHOLS C.G. The influence of 'diastolic' length on the contractility of isolated cat papillary muscle. 269

SILLAU A.H. Capillarity, oxidative capacity and fibre composition of the soleus and gastrocnemius muscles of rats in hypothyroidism. 281

HIRST G.D.S., JOHNSON S.M. & VAN HELDEN D.F. The calcium current in a myenteric neurone of the guinea-pig ileum. 297

HIRST G.D.S., JOHNSON S.M. & VAN HELDEN D.F. The slow calcium-dependent potassium current in a myenteric neurone of the guinea-pig ileum. 315

BENOIT Evelyne, CORBIER Alain & DUBOIS Jean-Marc Evidence for two transient sodium currents in the frog node of Ranvier. 339

KURIHARA Satoshi & SAKAI Toshio Effects of rapid cooling on mechanical and electrical responses in ventricular muscle of guinea-pig. 361

HARRISON P.J. & JANKOWSKA E. Sources of input to interneurones mediating group I non-reciprocal inhibition of motoneurones in the cat. 379

HARRISON P.J. & JANKOWSKA E. Organization of input to the interneurones mediating group I non-reciprocal inhibition of motoneurones in the cat. With an Appendix by P. J. HARRISON. 403

BARTSCHAT D.K. & BLAUSTEIN M.P. Potassium channels in isolated presynaptic nerve terminals from rat brain. 419

BARTSCHAT D.K. & BLAUSTEIN M.P. Calcium-activated potassium channels in isolated presynaptic nerve terminals from rat brain. 441

DEMONSTRATIONS

Fellows I.W. & MacDonald I.A. The on-line measurement of oxygen consumption and carbon dioxide excretion in man. 2*P*

Lakomy H.K.A. The measurement of power output during simulated rowing. 3*P*

Evans D.F., Jones J.A. & Hardcastle J.D. Ambulatory monitoring of gastro-intestinal pH in man using a radiotelemetry capsule and new solid-state recorder. 4*P*

Patrick J.M. & Wharrad H.J. A computer method for the analysis of the timing of R-waves within breaths. 5*P*

Ballal M.A., Bassey E.J., MacDonald I.A. & Terry A.M. Ambulatory monitoring of the oxygen cost of self-paced walking. 6*P*

Bassey E.J., Dudley B.R. & Pearson M.B. The problem of resonance in isokinetic dynamometers. 7*P*

Bassey E.J., Fentem P.H. & Patrick J.M. Ambulatory monitoring of customary physical activity using a body-borne tape-recorder. 8*P*

Davies C.T.M., Thomas D.O. & White M.J. Measurement of human muscle torque under isokinetic conditions using electrically evoked tetani. 9*P*

Brown A.M., Slater E.J. & Tomlinson D.R. Analysis of axonal transport of radiolabelled tracer molecules using a microcomputer. 10*P*

Calcutt N.A. & Tomlinson D.R. A novel preparation for the study of axonal transport *in vitro*: the chick nodose ganglion/vagus nerve preparation. 11*P*

Birmingham A.T., Wharrad H.J., Williams E.J. & Wilson C.G. Accelerometric measurement of finger tremor: analysis of the analogue signal. 12*P*

Maidment N.T., Marsden C.A. & Martin K.F. Direct monitoring of central amine neurotransmitter function in the rat using *in vivo* voltammetry. 13*P*

Marsden C.A. & Routledge C. Intracerebral dialysis of the rat frontal cortex. 14*P*

Ashley C.C., Howse B.P.A., McIntyre M.E., Thomas M.V. & Timmerman M.P. A microprocessor-controlled pulsed-wavelength differential microspectrophotometer. 15*P*

COMMUNICATIONS

Cook J., Ramsey R. & Usherwood P.N.R. Giga-ohm recordings of glutamate receptor-gated channels from locust muscle *in vitro*. 16*P*

Glavinovic M.I. Quantal release of newly formed transmitter in frog. 17*P*

Bevan S., Chiu S.Y., Gray P.T.A. & Ritchie J.M. Sodium channels in rat cultured astrocytes. 18*P*

Bevan S., Chiu S.Y., Gray P.T.A. & Ritchie J.M. A high conductance K^+ channel in rabbit cultured fibroblasts. 19*P*

Chapman R.A. The relationship between a^1_{Na} and a^2_{Na} in isolated ferret ventricular trabeculae; the effects of temperature and cyanide. 20*P*

Carmeliet E. & Mubagwa K. The acetylcholine-induced current in rabbit cardiac Purkinje fibres is different from i_{K1}. 21*P*

Mayer Mark L. Calcium-activated chloride current in rat dorsal root ganglion neurones. 22*P*

Mason M.J. & Thomas R.C. Evidence for facilitated diffusion of L-lactate across frog skeletal muscle membranes. 23*P*

Habara Y., Mann G.E. & Peran S. L-Glutamine transport kinetics in the isolated perfused rat exocrine pancreas: interactions between L-glutamine, L-phenylalanine and L-serine. 24*P*

Case R.M. & Howorth A. The influence of forskolin on electrolyte transport processes in the perfused rabbit mandibular salivary gland. 25*P*

Brown A.M. & Simonsen L.O. Intracellular cobalt buffering by intact human red cells – evidence for time-dependent and metabolism-dependent changes. 26*P*

Ellendorff F. & Grossmann R. Latency jumps and variable latencies of antidromically identified magnocellular neurones in the chicken embryo. 27*P*

Brown M.W. & Smithson J.E. Effects of vasopressin on paired-pulse potentiation in the rat hippocampal slice. 28*P*

Dean A.D.P., Dyer R.G. & Mansfield S. Effects of fasting upon noradrenergic mechanisms regulating release of luteinizing hormone (LH) and prolactin (PRL) in female rats. 29*P*

Blount C.A. & Leng G. Synaptic excitation and inhibition in the lateral hypothalamus following stimulation of the neural stalk in the rat. 30*P*

Colombo J. & Ellendorff F. Increase in intramammary pressure following stimulation of fetal brain tissue transplants in lactating rats. 31*P*

Bicknell R.J., Chapman C., Leng G. & Russell J.A. Chronic morphine exposure and oxytocin neurones in rats: lack of both morphine dependence and cross-tolerance to endogenous opioids in the neurohypophysis. 32*P*

Düsterhöft Sabine & Pette Dirk Changes in myosin light chains by chronic stimulation of chick myotubes in culture. 33*P*

Gambke Brigitte, Maier Alfred & Pette Dirk Transformation and/or replacement of fibres in chronically stimulated rabbit fast-twitch muscle? 34*P*

Cotter Mary & Phillips Peter Chronic low-frequency activation prevents immobilization atrophy in rabbit soleus muscles. 35*P*

Al-Amood W.S., Lewis D.M. & Rowlerson Anthea The effects of chronic stimulation at low rates on denervated rat soleus muscle. 36*P*

Rennie M.J. & Watt P.W. Kinetics of glutamate and glutamine transport in perfused rat skeletal muscle. 37*P*

Garnier D. & Roulet M.J. Differential sensitivities of the responses to K^+ ions and oxygen on the guinea-pig ductus arteriosus. 38*P*
